

Papa Massamba NDOYE

Credit Risk reporting analyst & automation builder. I turn portfolio closings, the IFRS 9 Impairment Data Template, BCEAO FODEP returns and Central Risk Register filings into automated, controlled, board-ready pipelines.

PROFIL Credit risk know-how, powered by automation

Fifteen years inside the bank, from operations to credit: I know the data because I processed it by hand before automating it.

Within Ecobank Senegal's Credit Administration Department (CAD), I have produced BCEAO regulatory returns and Group reporting since 2021. I rebuilt the portfolio's Power Query workflows as standalone HTML applications that read raw extracts, apply the BCEAO / IFRS 9 grid, reconcile against the ledger and deliver consistent, Ecobank-branded outputs.

Credit risk

BCEAO classification, IFRS 9 staging, PDO, NPL, provisions

Regulatory & Group

FODEP, Central Risk Register, Impairment Data Template

Automation & AI
